ACCESS SERVICE

3. CARRIER COMMON LINE ACCESS SERVICE (Cont'd)3.3 Undertaking of the Telephone Company

- (A) Where the customer is provided with Switched Access Service under other sections of this tariff, the Telephone Company will provide the use of Telephone Company common lines by a customer for access to end users at rates and charges as set forth in 30.3 following.
- (B) Where the customer is engaged exclusively in reselling services in order to provide an originating MTS/WATS-type service, the customer may employ ordinary local business exchange service at generally applicable local business exchange rates under the Telephone Company general and/or local exchange tariffs provided all the following conditions are met:
- (1) The resold services must be MTS/WATS service, MTS-type service and/or WATS-type service which is subject to Carrier Common Line Access Charges under this tariff and/or Telephone Company provided intrastate Private Line Service subject to rates which generate revenue that exceeds the cost of such Private Line Service by not less than the product of the Carrier Common Line rate which would normally apply and the originating access minutes of use routed to the Private Line Service. The originating access minutes of use are determined by multiplying the number of business lines by the monthly (21 days) minutes per line assuming 43 minutes of use during the daily busy hour and that the busy hour reflects 10% of the total daily usage.

When the Telephone Company provided intrastate Private Line Service provides a contribution that is less than the Carrier Common Line charge as determined above, the customer at its option may employ ordinary local business exchange service at generally applicable local business exchange rates and pay the difference between the contribution and the Carrier Common Line charge. The Private Line contribution is specified in the OTIS II regulations found in PSC No. 1-COMMUNICATIONS tariff Section 12.

Issued: August 1, 2001

Effective: September 1, 2001
