ACCESS SERVICES TARIFF

SECTION 6 - SWITCHED ACCESS SERVICE (CONT'D.)

6.6 Rate Regulations (Cont'd.)

6.6.3 Application of Local Transport Rates

- A. The local transport termination rate is applied per minute of use.
- B. The local transport facility rate is applied per mile, per minute of use. When the local transport facility mileage is zero (i.e., the end office switch or WSO, as appropriate and the customer's serving wire center are collocated), the local transport facility rate does not apply.
- C. The tandem switching rate is applied per minute of use.
- D. The interconnection charge is applied per minute of use.
- E. For the direct trunked transport, the channel mileage applies on a fixed and a per mile monthly basis.
- F. When the direct trunked transport is provided to an end office which is a host office, in addition to the appropriate channel mileage monthly rate, the customer will be billed the local transport termination rate on a per minute of use basis and the local transport facility rate on a per mile per minute for the transport of the call to or from an RSS or RSM. The mileage for local transport facility rate element will be measured from the host office to the RSS or RSM. The Calculation of the mileage is set forth in Section 6.4, preceding.
- G. For direct trunked transport provided to an access tandem, the channel mileage applies on a fixed and per mile basis between the serving wire center and the access tandem. The per mile per minute local transport facility and the per minute local transport termination rates apply for the transport from the access tandem to the end office. The per minute tandem switching rate applies to all minutes of use switched at the access tandem. The channel mileage calculation is set forth in Section 6.4.
