ACCESS SERVICES TARIFF

SECTION 7 - INTRALATA PRE-SUBSCRIPTION SERVICE

7.1 IntraLATA Pre-subscription Service

ILP is an arrangement whereby an exchange service customer of the Telephone Company designates either the Telephone Company or another carrier as its pre-subscribed interexchange carrier (ILP PIC) for calls made from the customer's exchange access line, without the customer having to dial an access code. Calls which qualify for ILP are intrastate intraLATA toll calls as defined in CTC NY PSC No.7 and NY PSC No.8.
