ACCESS SERVICES TARIFF

SECTION 6 - SWITCHED ACCESS SERVICE (CONT'D.)

6.2 Functional Components of Service (Cont'd.)

6.2.7 Local Switching Optional Features - SS7 Signaling Options (Cont'd.)

- D. Carrier Identification Parameter (CIP) - provides for the transmission of CIC information to the customers on originating FGD service. CIP is available from suitably equipped end offices and access tandems, when the SS7 signaling option is specified. When CIP is provided, the switch will transmit, to the customer premises, the 3 or 4 digit CIC of the pre-subscribed line, or the CIC selected when the end user places a call using 10XXX or 101XXXXX dialing. CIP is available on an originating basis as a chargeable optional feature with originating one or two way FGD trunk groups.
