SECTION 5 - LEC SWITCHED SERVICE (CONT'D.)

5.11 Application of Rates and Charges

5.11.1 General (Cont'd.)

D. Dedicated Transport

1. Mileage - Dedicated transport when provided by the Telephone Company is subject to fixed and per mile monthly rates by interface groups. Mileage to be used to determine the dedicated transport fixed and per mile monthly rates is calculated on the airline distance between the end office or access tandem where the call carried originates or terminates and the serving wire center of the LEC's premises. To determine the rate to be billed, first compute the mileage using the V&H coordinates method, as set forth in the NECA Tariff FCC No. 4. If the calculation results in a fraction of a mile, always round up to the next whole mile before determining the mileage. Multiply the mileage by the appropriate per mile rate. The amount to be billed shall be the product of this calculation plus the fixed rate.
  - a. When the V&H coordinates of the LEC's premises and the Telephone Company end office or access tandem are the same, the dedicated transport per mile rate element does not apply. The dedicated transport fixed rate always applies.
  - b. The rates associated with the individual arrangement also apply.
