SWITCHED ACCESS SERVICES TARIFF

SECTION 3 - SWITCHED ACCESS SERVICE, (Cont'd.)

3.2 Rate Categories, (Cont'd.)

3.2.2 Transport Service, (Cont'd.)

Where transmission facilities permit, the individual transmission path between the Customer's designated premises and the first point of switching may at the option of the Customer be provided with the following optional features at no charge:

Supervisory Signaling
Customer Specified Entry Switch Receive Level
Customer Specification of Local Transport Termination

3.2.3 Network Blocking Charge

The Customer will be notified by the Company to increase its capability (Busy Hour Minutes of Capacity or quantities of trunks) when excessive trunk group blocking occurs on groups carrying FGD traffic and the measured access minutes for that hour exceed the capacity purchased.

If the order for additional capacity has not been received by the Company within 15 days of the notification, the Company will bill the Customer, at the rate set forth in this Tariff, for each overflow in excess of ordered capacity.

3.2.4 Data Base Services

Data Base Services are provided using components of the Company's Common Channel Signaling, Signaling System 7 (CCS/SS7) network, such as 800 Service and LNP Query Service.
