8.2 Recording Service, (Cont'd.)

For Feature Group B or 900 Access Service, C, and D Switched Access Service, the term "Customer message" used herein denotes an intrastate call originated by a Customer's end user. Station message detail recording is an optional feature that provides a record of Customer messages originated by MTS and WATS access lines. Such detail will be provided as part of Feature Group D end office and type of call recording service when requested by the Customer. For Feature Group A switched access service, the term "Customer message" used herein denotes a call over an intrastate Feature Group A switched access service. A call includes both calls originated to and terminated from a Feature Group A switched access service. The beginning and ending of a Customer message are determined pursuant to the written instructions of the Customer.
