Superseding Revision: 0

SECTION 5-MESSAGE TELECOMMUNICATIONS SERVICE (MTS)

5.3 AT&T LONG DISTANCE SERVICE

5.3.1 CLASSES OF SERVICE

For the purposes of rate application, one of six classes of service may apply to a Long Distance call. These classes of service are Dial Station, Customer Dialed Calling Card Station, Operator Dialed Calling Card Station, Operator Station, Person-to-Person and Real Time Rated. The term Company Operator, as used in the following definitions, includes both a live Company Operator and the automated operator system and excludes any automated system which has been developed for Customer dialed Calling Card Calls. Each class of service and its specific regulations follow.

A.Customer Dialed

a. Dial Station

(This class of service is being marketed by the Company as "AT&T Long Distance Service."). (T)
Dial Station rates apply when the person originating the call dials the telephone number desired and completes the call without the assistance of a Company Operator, and the call is billed to the calling station. Dial Station rates apply when:

1. The calling party cannot complete the call due to trouble on the telecommunications network, and chooses to re-dial the call. The Customer will be informed that if the Operator completes the call, the Customer will be charged Operator Station rates.
2. A Customer re-establishes a Dial Station call that has been involuntarily interrupted after the station has been reached. Customers may take credit for the interrupted call as specified under Section 2. If an Operator is requested by the Customer to complete the call, Operator Station rates will apply, as specified in Section 5.3.7.E.
