PSC No. 2 - Telephone

Effective Date: September 12, 2012

Leaf 45 Revision: 0 Superseding Revision:

INTEREXCHANGE SERVICES TARIFF

SECTION 2 - RULES AND REGULATIONS, (CONT'D.)

- 2.25 Emergency/Crisis/Disaster Restoration And Provisioning Telecommunications Service Priority, (Cont'd.)
 - 2.25.1 General, (cont'd.)
 - B. The TSP program has two components, restoration and provisioning.
 - 1. A restoration priority is applied to new or existing telecommunications services to ensure restoration before any other services during a service outage. TSP restoration priorities must be requested and assigned before a service outage occurs.
 - 2. A provisioning priority is obtained to facilitate priority installation of new telecommunications services during a service outage. Provisioning on a priority basis becomes necessary when an end-user has an urgent requirement for a new NS/EP service that must be installed immediately or by a specific due date that can be met only by a shorter than standard or expedited Company provisioning time frame. As a matter of general practice, existing TSP services will be restored before provisioning new TSP services.
