RESOLD LOCAL AND INTEREXCHANGE TELECOMMUNICATIONS TARIFF

SECTION 4 - DIGITAL DATA SERVICE (CONT'D.)

4.2 Digital Data Service II – General (Cont'd.)

4.2.2 Regulations (Cont'd.)

G. Secondary Channel Capability Option

1. This optional feature may be ordered at the same time the Primary Channel is ordered or it may be ordered as an addition to existing DDSII service.
2. Customers must agree to out-of-service periods required to add this feature to an existing DDSII service.
3. Customers must provide customer premises equipment which is compatible with the Secondary Channel interface requirements specified in TR-NPL-000157.
4. Service is not available on DDSII Primary Channel which requires regenerative repeaters in the loop to the customer premises.

H. The minimum period, for which service is furnished and for which charges are applicable, is one month.

Issued By: Vice President, Tax, Atlanta GA 30309
