

RCN Telecom Services of New York, LP

Section 3

Leaf No. 40

PSC No. 4 - Telephone

Revision No. 1

Effective Date: July 16, 2012

Superseding Revision No. 0

SERVICE AND RATE DESCRIPTIONS3.1 Network Access Services (cont'd.)3.1.3 Other Rate Categories (cont'd.)B. Interconnection Service (cont'd.)1. (cont'd.)(c) Regulations (cont'd.)

II. Where traffic type jurisdiction can be determined on a per call basis, the Company will bill the CLEC usage charges based on call detail. To the extent that the Company is unable to determine traffic type on a per call basis based on call detail, the CLEC shall provide POTS Traffic Usage Percentage (PTUP) factors for the traffic originating on its network and terminating on the Company's network. A PTUP will be provided for each POI.

III. The Company may request an annual audit of the authorized local exchange provider billings for Interconnection Services (calls originating from the Company's end-user to the CLEC's end-user). The audit requirement is needed to ensure accurate billing between POTS Traffic calls and non-POTS Traffic calls.
