Superseding 6th Revised Page 18ADVANCED DATA SERVICES

DESCRIPTION OF ADVANCED DATA SERVICES (Continued)

4.2 TRANSPARENT LAN SERVICES (Continued)

4.2.4 Application of Rates and Charges (Cont'd)

(D) The following rate elements are applicable to TLS:

(a) UNI Port With Access Line Connection

A monthly rate applies on a per line basis, based on the speed of the access connection (i.e., 10 Mbps, 100 Mbps, 1000 Mbps or 10 Gbps). The Access Line is offered on a month to month basis, or as a three-year or five-year Term Payment Plan. A nonrecurring charge will apply to the installation of an Access Line provided on a month-to-month basis.

1. Standard Access Lines (available for EMS Service Type only) – A monthly rate applies on a per line basis, based on the speed of the access connection (i.e., 10 MBPS, 100 MBPS, or 1000 MBPS). The Standard Access Line is offered on a month-to-month basis, or as a three-year or five-year Term Commitment Plan. A nonrecurring charge applies to the installation of Standard Access Lines provided on a month-to-month basis. Besides the standard connectivity model, Standard Access Line is offered with three other types of UNI Port with Access Line Connections, where facilities exist.

- (1) Protected Non-Diverse
- (2) Protected Diverse
- (3) Protected Private

2. Protected Access Line* (available for EMS Service Type Only) – Protected Access Lines are provisioned as a survivable service with an alternate fiber pair between the central office and the customer premises. Protected Access Lines, in most situations, allow the Company to recover from a detected failure by moving the customer's data to an alternate fiber pair in approximately one second. Both fiber pairs must be served by the same central office and must have the same access speed. The second fiber pair will be routed over a diverse fiber path when possible. A monthly rate applies on a per line basis, based on the speed of the access connection (i.e., 100 MBPS or 1000 MBPS) as well as applicable IOF charges calculated on each set of fiber pairs. The Protected Access Line is offered on a month-to-month basis, or as a three-year or five-year Term Commitment Plan. A nonrecurring charge will apply to the installation of a Protected Access Line* provided on a month-to-month basis. Protected Access Line is only offered with a direct fiber UNI Port with Access Line Connection, where facilities exist.

(T)

* As of February 18, 2011 Protected Access Line Service will not be provided to new subscribers. Existing subscribers may continue to keep this feature; however, changes and/or moves will not be permitted.
