

ADVANCED DATA SERVICES

## DESCRIPTION OF ADVANCED DATA SERVICES (Continued)

## 4.2 TRANSPARENT LAN SERVICES (Continued)

## 4.2.4 Application of Rates and Charges (Cont'd)

## D. The following rate elements are applicable to TLS: (Cont'd)

## (c) Interoffice Mileage

The Interoffice Mileage charge, where applicable, is based on the Per Mile charge multiplied by the distance between the Customer's serving central office and the nearest TLS equipped central office (a central office equipped with a switch, node, or other Telephone company equipment capable of delivering service, via a shared fiber path or network infrastructure). This interoffice distance is measured in airline miles, based upon latitude and longitude of each central office. The mileage measurement is calculated as specified by NECA Tariff FCC No. 4. The mileage rate applies on a per mile basis. This charge applies in addition to the applicable rates and charges for the UNI Port With Access Line or Premier Access Line. Optical protected mileage interoffice transport is available for the 1000M UNI speed. The protected transport options for 10/100M UNI speeds include optical protected interoffice transport when needed.

## (d) Domain/LAN Extension Equipment Changes

Where the customer requests changes in EMS Domains or in LAN extension equipment, a nonrecurring charge per location, per change will be imposed.

(e) Optional Feature  
Customer Service Management\*

(T)

Customer Service Management (CSM) is an optional feature that provides customers with web-based reports. These reports give the customer the ability to extract "read-only" network traffic information regarding their networks thereby allowing customers to monitor and manage their network performance. CSM is provided per customer Domain/VLAN.

CSM will be provided where conditions and facilities permit.

The Company reserves the right to temporarily interrupt CSM for maintenance, software upgrades, and in emergency situations.

A monthly rate and a nonrecurring charge apply for each CSM arrangement. The customer will be charged on a per Domain/VLAN basis. The nonrecurring charge applies in addition to all other applicable service charges.

\* As of February 18, 2011 CSM will not be provided to new subscribers. Existing subscribers may continue to keep this feature; however, changes and/or moves will not be permitted.
