PSC No. 4 - Telephone

Revision No. 0

Effective Date: July 1, 2012

Superseding Revision No. 0

SERVICE AND RATE DESCRIPTIONS3.1 Network Access Services (cont'd.)3.1.2 Rate Categories (cont'd.)C. End Office

The End Office rate category provides the local end office switching and end user termination functions necessary to complete the transmission of Switched Access communications to and from the end users served by the Company's end office. Rates and charges for the End Office rate category are as set forth in Section 5.1.4 following.

1. End Office

The End Office rate category includes the Local Switching, Line Termination, Intercept, and Information rate elements.

(a) Local Switching

The Local Switching rate element provides for the use of end office switching equipment.

(b) Line Termination

The Line Termination rate element provides the terminations for the end user common lines terminating in the local end office.

(c) Intercept

The Intercept rate element provides for the termination of a call at a Company Intercept operator or recording. The operator or recording tells a caller why a call, as dialed, could not be completed, and if possible, provides the correct number. Intercept rates are assessed to a customer based on the total number of access minutes.
