SERVICE AND RATE DESCRIPTIONS3.1 Network Access Services (cont'd.)3.1.3 Other Rate CategoriesA. 800 Data Base Network Access Service1. Description

800 Data Base Network Access Service is a service offering utilizing originating trunk side Switched Access Service. The service provides for the forwarding of end user dialed 800 calls to a Company Service Switching Point which will initiate a query to the data base to perform the customer identification function. The call is forwarded to the appropriate customer based on the dialed 800 number. The customer has the option of having the dialed 800 number or, if the 800 to POTS Number Translation feature is specified, a translated ten digit POTS number delivered to the customer premises. Rates and charges for 800 Data Base Network Access Services are as set forth in Section 5.1.5 following.

2. Customer Identification Charge

The 800 Data Base Network Access Service Customer Identification Charge applies for the identification of the appropriate customer for 800 Data Base Network Access Service. The charge is assessed to the customer on a per query basis and may include an area of service which may range from a single NPA/NXX to an area consisting of all LATAs and NPAs in the State of New York.
