

RCN Telecom Services of New York, LP

Section 2

Leaf No. 13

PSC No. 4 - Telephone

Revision No. 0

Effective Date: July 1, 2012

Superseding Revision No. 0

REGULATIONS2.3 Obligations of the Customer (cont'd.)2.3.3 Switched Access Jurisdictional Report Requirements (cont'd.)

## A. (cont'd.)

The Company will designate the number obtained by subtracting the projected interstate percentage for originating and terminating access minutes from 100 (100 -projected interstate percentage = intrastate percentage) as the projected intrastate percentage of use.

For Feature Group D originating access minutes, the projected intrastate interLATA percentage will be developed on a monthly basis by end office when the Feature Group D Switched Access Service access minutes are measured by dividing the measured intrastate interLATA originating access minutes (the access minutes where the calling number is in one LATA and the called number is in another LATA) by the total originating intrastate access minutes when the call detail is adequate to make such determination. For terminating access minutes, the data used by the Company to develop the projected intrastate interLATA percentage for originating access minutes will be used to develop projected intrastate interLATA percentage for such terminating access minutes. When a customer orders Feature Group D Switched Access Service, the customer shall supply a projected intrastate intraLATA percentage of use for each end office involved to be used in the event that originating call details are insufficient to determine whether the call is interLATA or intraLATA. This percentage shall be used by the Company as the projected intrastate intraLATA percentage for such call detail. For purposes of developing the projected intrastate intraLATA percentage the customer shall utilize the same considerations as those set forth in Section 2.3.3(B) following. The Company will designate the number obtained by subtracting the projected intrastate intraLATA percentage for originating and terminating access minutes from the designated intrastate percentage as the projected intrastate interLATA percentage of use.
