Revision No. 0

Effective Date: July 1, 2012

Superseding Revision No. 0

SERVICE AND RATE DESCRIPTIONS3.2 Miscellaneous Services3.2.1 PresubscriptionA. InterLATA

1. Presubscription is an arrangement whereby an end user may select and designate to the Company an interexchange carrier (IC) to access, without an access code, for intrastate interLATA calls and interstate interLATA calls subject to the Company's FCC Access Tariff. This IC is referred to as the end user's Primary Interexchange Carrier (PIC). The end user may select as its PIC the Company, or any other IC that orders originating Feature Group D Switched Access Service at the end office that serves the end user. After the end user's initial selection of a predesignated IC, for any additional change in selection, a nonrecurring charge, as set forth in Section 5.2.1, applies.
2. At the request of a new or existing end user served by a Feature Group D end office, the Company will provide a list of ICs the end user may select as its PIC. At no additional charge for the initial selection, the Customer may choose either of the following options.
  - Designate an IC as a PIC and dial 10XXX or 101XXXXX to reach other ICs.
  - Designate that they do not want to be presubscribed to any IC and choose to dial 10XXX or 101XXXXX for all calls to all ICs.
