BILLING AND COLLECTION SERVICES

4. Billing and Collection Services

4.1 Automatic Number Identification

Automatic Number Identification (ANI) provides the automatic transmission of a seven or ten digit number and information digits to the customer's premises for calls originating in the LATA, to identify the calling telephone number. The ANI feature is an end office software function which is associated on a call-by-call basis with (1) all individual transmission paths in a trunk group routed directly between an end office and a customer's premises or, where technically feasible, with (2) all individual transmission paths in a trunk group between an end office and an access tandem, and a trunk group between an access tandem and a customer's premises.

4.1.1 Rate Regulations

When Automatic Number Identification (ANI) is delivered (with Feature Group D originating), the ANI rate as set forth in Section 5.3.1 will apply for each ANI record delivered to the customer.
