## SPECIALIZED COMMON CARRIER SERVICE

### SECTION 4. RATES

This section sets forth the rates and charges applicable to Company's Metered Use Service offering.

The total charge for each completed operator assisted call consists of two charge elements (except as otherwise provided herein): fixed operator service charge, which will be dependent on the type of billing selected (i.e., calling card, charge third party or other) and / or the completion restriction selected (i.e., station-to-station or person-to-person); and a measured usage charge dependent on the duration and distance of the call. The usage charge element is specified as a rate per minute which applies to each minute of call duration, with a minimum charge for each call of one minute, and with fractional minutes of use thereafter counted as one full minute. Calls originating in one time period and terminating in another will be billed according to the rates applicable to the time recorded in each period.
