Leaf No. 19
Revision No. 0
Superseding Revision No. 0

SPECIALIZED COMMON CARRIER SERVICE

SECTION 2. RULES AND REGULATIONS (Cont'd)

2.4 Responsibilities of the Subscriber (Cont'd)

2.4.5 The subscriber shall ensure that the equipment and / or system is properly interfaced with Company facilities or services, that the signals emitted into Company network are of the proper mode, bandwidth, power, and signal level for the intended use of the subscriber and in compliance with the criteria set forth in this tariff, and that the signals do not damage equipment, injure personnel, or degrade service to other subscribers. If the Federal Communications Commission or some other appropriate certifying body certifies terminal equipment as being technically acceptable for direct electrical connection with interstate communications service, Company will permit such equipment to be connected with its channels without the use of protective interface devices.

If the subscriber fails to maintain the equipment and / or the system properly, with resulting imminent harm to Company equipment, personnel, or the quality of service to other subscribers, Company may, upon written notice require the use of protective equipment at the subscriber's expense. If this fails to produce satisfactory quality and safety, Company may, upon written notice, terminate the subscriber's service.

2.4.6 The subscriber must pay Company for replacement or repair of damage to the equipment or facilities of Company caused by the negligence or willful act of the subscriber, users, or others, by improper use of the services, or by use of equipment provided by the subscriber, users, or others.
