### GENERAL INFORMATION

#### 17. ADJUSTMENT OF RATES IN ACCORDANCE WITH CHANGES IN THE COST OF PURCHASED GAS: (continued)

##### 17.3 Monthly Cost of Gas:

- 17.3.1 The Monthly Cost of Gas shall be the sum of the Average Cost of Gas as computed herein multiplied by the Factor of Adjustment stated in Rule 17.1 as adjusted for Supplier Refunds as stated in Rule 17.6, the Annual Surcharge or Refund as stated in Rule 17.7 and any other adjustments approved by the Public Service Commission. This Monthly Cost of Gas shall be adjusted for Load Factors.
- 17.3.2 The Average Cost of Gas shall be equal to the sum of the Average Commodity Cost of Gas and the Average Demand Cost of Gas per therm.
- 17.3.3 The Average Commodity Cost of Gas shall be computed monthly by determining the total commodity cost of gas as defined in Rule 17.3.5, less the cost of gas for customers taking standby sales service under Service Classification No. 8, less supplemental service under Service Classification No. 9 dividing such cost by the forecasted Weather Normalization quantities of gas for delivery to the Company's own customers during the month in which the Monthly Cost of Gas will be in effect. Such quantity will exclude gas purchased for sale to Service Classification No. 8 standby sales customers, and Service Classification No. 9 supplemental service customers.
- 17.3.4 The Average Demand Cost of Gas shall be computed monthly by determining the Total Demand Cost of Gas as defined in Rule 17.3.6, less D1 demand charges applicable to Service Classification No. 8 customers, less 85% of capacity release credits received for releasing or reassigning capacity reserved on interstate pipelines, less 85% of margins related to the Company's FERC Sale for Resale Certificate, less capacity release credits resulting from the migration of customers to delivery only service.
  - 17.3.4.1 The resulting demand charges shall be divided by the Weather Normalization quantities of gas taken for delivery to the Company's sales customers during the twelve calendar months immediately preceding the computation date.
