F. Business Group Feature Package

1. Description

A set of features which allow a group of telephone numbers to share calls and special calling features for greater productivity. The package is composed of 4 features which are automatically provisioned and 3 features which can be added by the user via our online portal.

a. Standard Features

- Extension Dialing – ability to dial any BCP telephone number in the Business Group with just the last 4 digits of the telephone number
- Group Speed Dial – allows any number of the group to make calls from a common (shared) speed dial list
- Direct Outward Dial – provides the ability to make a call outside the business group
- DID Distinctive Ringing – provides a unique ring for calls from within the group vs. from outside the group.

b. Optional Features

- Call Park and Retrieve – provides the ability to park and retrieve call from any station within the business group
- Directed Call Pick-Up – enables a member of the group to answer a call ringing on any other line in the group by dialing a code
- Call Hold – allows the user to put an active call on hold and then make another call.
