3.4 Metering and Billing – Continued

3.4.4 Meter Reading and Billing Period

Thirty days is considered a month for billing purposes. In the ordinary course of business, meters are scheduled by the Company to be read and bills are rendered monthly (approximately 30 days). The Company prepares such schedules in advance. The Company reserves the right to read meters and render bills at any other interval of time. The Company shall attempt to obtain an actual meter reading for each scheduled meter reading for each Customer account by a visit to the Customer's premises. In the case of non-residential Customers, the visit shall be between 8 a.m. and 5 p.m. on a business day.

Where the Company has billed a non-residential Customer's account based on the readings of a remote registration device for six consecutive months, the Company shall, at the time of every subsequent reading attempt and, until successful, try to gain access to and read the meter.

3.4.5 Billing of Changes in Rates and Proration of Monthly Rates and Charges

Unless otherwise specified under this Rate Schedule, the following provisions will apply to billing of change in rates and proration of monthly rates and charges:

- a. Rates and charges shall apply to service rendered on and after the effective date of those rates and charges. The rates and charges will be prorated when there is a change in rates and charges on the basis of the number of days of service rendered before the effective date and on and after the effective date related to the total number of days in the billing period.
- b. Monthly rates and charges, except for those assessed per Mlb, will be prorated when the Company renders a bill for other than a 30-day period on the basis of the number of elapsed days divided by 30.

Where Usage Charges are subject to Mlb rate blocks, the number of Mlb of usage within the first rate block and each succeeding rate block will be prorated on the basis of the number of elapsed days divided by 30 before any remaining Mlb usage is allocated to the succeeding rate block(s).
