Effective: December 2, 2012

New York PSC No. 1 – Access Service
Leaf: 68
Revision: 1
Superseding Revision: 0

SECTION 5. SWITCHED ACCESS

VIII. Rates and Charges (Continued)

J. Toll Voice over Internet Protocol – Public Switched Telephone Network (“VoIP-PSTN”) Traffic

This section governs the identification and treatment of Toll VoIP-PSTN Traffic that is required to be compensated at interstate access rates unless the parties have agreed otherwise in a written agreement. Specifically, this section establishes the method of separating such traffic (referred in this tariff as Relevant “VoIP-PSTN Traffic”) from a Customer’s traditional intrastate access tariff, so that such Relevant VoIP-PSTN traffic can be billed in accordance with the F.C.C. Order.

Company will bill and collect Interstate Switched Access rates on traffic exchanged with Customers when such traffic originates and/or terminates in Internet Protocol format, as set forth in Section 51.913 of the Federal Communications Commission’s rules, 47 C.F.R. §51.913, regardless of whether the Company itself delivers such traffic to the called party’s premises or delivers the call to the called party’s premises via contractual or other arrangements with an affiliated or unaffiliated provider of interconnected Voice over Internet Protocol service or a non-interconnected Voice over Internet Protocol service that does not itself seek to collect Switched Access charges for this traffic.¹

Terminating intrastate VoIP-PSTN traffic is subject to the Company’s applicable interstate switched access rate per minute, as set forth in the Company’s F.C.C. Tariff No. 2.
