

RCLEC, Inc.
P.SC. No. 3 – Local Wholesale Access Tariff

Section 3
Page No. 6
Revision No: 0
Superseding Rev. No.:

Effective Date: February 5, 2013

SERVICE DESCRIPTIONS (CONT'D)

3.2 Wholesale Local Loop Service (Cont'd)

3.2.7 Ethernet Transit Service

Ethernet Transit Service is an optically switched high-speed fiber-based data service that allows a Customer to connect two Company Carrier Hotel Gateway or Exchange Points using packet-based technologies. Ethernet Transit Service is a flexible, easy to use, transport service that uses established Ethernet transport technology. Ethernet Transit Service allows Customer to connect Customer's equipment located at Company Carrier Hotel or Exchange Points with Company Wholesale Transit Services or other Customer equipment collocated at other Company Gateway locations using native Ethernet protocol. Ethernet Transit Service supports transmission speed from 1 Gbps to 100 Gbps. Ethernet Transit Service provides Customer traffic segmentation enabling private and secure transfer of Ethernet frames over a shared network. Ethernet Transit Service is offered using either the IPv4 or IPv6 protocol.

3.3 Intrastate Toll Services

The Company only offers Interstate Toll Services bundled with its local wholesale access services; therefore, it has no separate toll rates.

3.4 Miscellaneous Services

3.3.1 PIC Change Charge

The customer is charged \$5.00 per account for each request to change their carrier selection.

An authorized PIC Change Charge of \$50.00 per occurrence will be billed to the Telephone Company who requested an authorized PIC change charge.
