

PSC No: 120 - Electricity
New York State Electric & Gas Corporation
Initial Effective Date: December 1, 2012

Leaf No. 72
Revision: 2
Superseding Revision: 1

GENERAL INFORMATION

16. Customer Advantage Program - General Retail Access: (Cont'd.)

D. Eligible Customer Participation: (Cont'd.)

7. Metering:

- (a) The metering requirements set forth in the Company's Tariff, P.S.C. No. 119 - Electricity, General Information Section 3 - Service Connections, apply here. Eligible Customers will continue to use existing meters.
- (b) An Eligible Customer that does not take service under an economic incentive provision that requests a meter other than that provided by the Corporation, commensurate with the Eligible Customer's Service Classification, is subject to the additional requirements set forth in the above referenced tariff. Meter upgrades, subject to the availability of equipment, will be installed and operated by the Company at the Eligible Customer's expense.
- (c) The Company will continue to own, install, maintain, and read Eligible Customers' meters used for billing purposes, with the exception of large commercial and industrial time-of-use customers who have the option of owning a Commission-approved meter as set forth in P.S.C. No. 119, with the Company retaining sole control of that meter.

Eligible large commercial and industrial time-of-use customers, or their designees, shall be allowed to receive meter data on a real-time or other basis, without incurring a fee, provided that such customers install and maintain, at their own expense, the necessary ancillary equipment required to receive such data. Such access may require the installation by the Company of a different type of meter/recorder that will allow multiple access, with the cost responsibility of such meter/recorder and installation to be borne by the customer and with the Company retaining sole control of the meter and responsibility for the installation and maintenance of the meter and compliance with applicable Commission regulations.
