ACCESS SERVICE

6. SWITCHED ACCESS SERVICE (Cont'd)6.7 Rate Regulations (Cont'd)6.7.1 Description and Application of Rates and Charges (Cont'd)(C) Nonrecurring Charges (Cont'd)

- (3) The Access Order Charge for Feature Group D Switched Access Service applies for all FGD services requested at the same time between the same premises or a collocated interconnection location for the same due date. Each subsequent or additional request will be assessed an additional Access Order Charge. In addition, an Installation Charge as set forth in (1) preceding and an Engineering Charge as set forth in (4) following will apply.
- (4) The Engineering Charge for Feature Group D Switched Access Service is applied per 1-24 trunks. Each subsequent or additional request will be assessed an additional Engineering Charge. In addition, an Installation charge and an Access Order Charge as set forth in (1) and (3) preceding will apply.

(D) Application of Rates

Local Switching and certain Local Transport rates will apply to all Feature Group access minutes when the originating and terminating usage is from or to an end office which is or is not equipped with equal access capabilities.

The Telephone Company will provide written notification to all access customers of record within a particular LATA that an end office in that LATA is scheduled to be converted to an equal access end office. This notification will be sent, via certified U.S. Mail, to each customer of record in the LATA where the conversion is scheduled to occur, at least six months in advance of the conversion date.

Feature Group A and B customers will have the choice of converting existing services to equal access (i.e., Feature Group D) at no charge or retaining the existing services.

The Operator Passthrough charge applies on a per call basis.

Issued: August 1, 2001

Effective: September 1, 2001
