Superseding Revision:

3. RULES AND REGULATION (CONT'D)

3.3 Liability of the Company. (Cont'd)

3.3.4. Customer Premises/Customer-Provided Equipment. The Company shall not liable for any defacement of, or damage to, the Customer's premises resulting from the furnishing of the Services or attachment of the Company's equipment and associated wiring on such premises, or from the installation or removal thereof, when such defacement or damage is not the result of the Company's negligence. The Customer shall indemnify and save harmless the Company from any claims of the owner of the Customer Premises or other third party claims for such damages.

The Company shall not be liable for the Customer's failure to fulfill its obligation to take all necessary steps, including, without limitation, obtaining, installing and maintaining all necessary equipment, materials and supplies, for interconnecting the terminal equipment or communications system of the Customer, or any third party acting as its agent, to the Company's network. The Customer shall secure all licenses, permits, rights-of-way, and other arrangements necessary for such interconnection. In addition, the Customer shall ensure that its equipment and/or system or that of its agent is properly interfaced with the Company's Services, that the signals emitted into the Company's network are of the proper mode, band-width, power, data speed, and signal level for the intended use of the Customer and in compliance with the criteria set forth in the applicable subsections of this Tariff, and that the signals do not damage the Company's equipment, injure its personnel, or degrade service to other Customers. If the FCC or some other appropriate certifying body certifies terminal equipment as being technically acceptable for direct electrical connection with interstate communications service, the Company will permit such equipment to be connected with its channels without the use of protective interface devices. If the Customer or its agent fails to maintain and operate its equipment and/or system or that of its agent properly, with resulting imminent harm to the Company's equipment, personnel, or the quality of service to other Customers, the Company may, upon written notice, require the use of protective equipment at the Customer's expense. If this fails to produce satisfactory quality and safety, the Company may, upon written notice, terminate the Services to the Customer without liability.
