
SECTION 1 - DEFINITIONS

The following definitions are applicable to this tariff:

Access Line - A local channel for voice, data, or video communications which connects the Customer location to a location of the Company or its underlying carrier or service provider.

Account - The Customer who has agreed, orally or in writing, to honor the terms of service established by the Company. An Account may have more than one service or telephone number and/or telephone numbers billed to the same Customer address. An Account may include multiple locations for the same Customer.

Account Code - A numerical code, assigned to the Customer, to enable the Company to complete calls as authorized by the Customer. Multiple Account Codes may be assigned to the Customer.

Aggregator - Any person or other legal entity that may be a Customer and, in the ordinary course of its operations, makes telephones available to the public or to transient users of its premises, for telephone calls using a provider of operator services.

Authorization Code - A pre-defined series of numbers to be dialed by the Customer upon access to the Company's system to identify the caller and validate the caller's authorization to use the services provided and to identify the Customer for billing purposes. The Customer is responsible for charges incurred through the use of his or her assigned Authorization Code. An example of an Authorization Code is a calling card account number and personal identification number.

Business Customer - For the purpose of this tariff, a Business Customer is a Customer of the Company whose primary use of the Company's service is for business purposes. A Business Customer is also a Customer who accesses the Company's service using an access line that has been assigned a business class of service by the local service provider.
