5. SWITCHED SERVICES (CONT'D)

5.2 Inbound Services. (Cont'd)

5.2.3. Inbound Service Optional Features. (Cont'd)

E. Enhanced Routing Features.

The following features are available for an additional one-time and monthly charge:

- (1) Time of Day Routing.** Customer may have Calls on the same 800/888 number routed to different locations during various times of day. Day of Week routing shall follow the national observance of daylight savings time. The day may be divided into fifteen (15) minute increments, with up to ninety-six (96) time intervals per twenty-four (24) hour period. All time intervals must begin on the quarter clock hour.
- (2) Day of Week Routing.** Customer may have Calls to the same 800/888 number routed to different locations based upon the day of the week. Day of Week routing shall follow the national observance of daylight savings time.
- (3) Day of Year Routing.** Customer may have Calls to the same 800/888 number routed to different locations on specified days of the year. Dates are stored in a month/day format. It is the responsibility of Customer to revise routing schedules annually.
- (4) Call Allocation Routing.** Customer may define routing of Calls made to the same 800/888 number on a percentage basis so that calls can be allocated to multiple locations. Percentages must be defined in whole numbers, with one percent (1%) as the smallest allocation percentage to any location. The total of all percentage allocations must be one hundred percent (100%).
