<sup>1</sup>This service is no longer available to new Customers or existing Customers at new locations effective April 1, 2004.

- (A) Business Block of Time 400 is a custom combination outbound, switched toll free, and calling card long distance optional pricing plan for calls that originate and terminate within the State. This optional pricing plan is established at the BTN level. Multiple BTN Aggregation is not available with this Service. If a Customer or Applicant selects a different price plan for specific WTN(s), the Customer or Applicant is required to establish a separate BTN for each variation. Outbound calls, TFS calls, and fully automated, operator assisted, and operator dialed calls are billed in increments of six (6) seconds subject to a minimum connect time (initial period) of sixty (60) seconds.
- (B) For a specified monthly recurring charge, the Customer receives a 400 minute (block) of interstate and/or intrastate time for a line presubscribed to the Company. The block of time may be used (1) for placing one plus (1+) Direct-Dialed outbound calls that originate from a line presubscribed to the Company and (2) for receiving TFS calls on the same presubscribed line. Calls billed to the Calling Card Option 2, category 11, are not included in the block of time. All usage in excess of the 400 minute block of time will be billed at a fixed rate per minute. See Section 1.7.15 of this Tariff for the per minute rate after the block of time has been used. Any minutes not used in a billing cycle will not be carried over to the next billing cycle. No credits will be given for any unused minutes.
- (C) When ordering Service, the Customer or Applicant must specify if Business Block of Time 400 is to be used for outgoing calls only, TFS, or both.
