Resale Services

6. Resale and Sharing
6.1 Description

Discounts, rates and charges for service(s) described herein are contained in Section 10.6.

6.1.1 General	
A.	Resale is the sale to another person of products or services purchased from the Telephone Company. A person purchases for resale within the meaning of this tariff when such person purchases a service for the purpose of reselling it to another (rather than the purpose of using the service itself).
1.	A purchasing agent who orders services for its principal, and who does not itself agree to assume the obligations of a reseller under this tariff, is not purchasing for resale within the meaning of this tariff.
2.	The purchase of services or unbundled network elements for the purpose of provisioning a different service (such as the purchase of the Telephone Company's switched carrier access service for the purpose of provisioning an interexchange carrier's toll service) is not resale within the meaning of this tariff.
3.	A person purchasing a service for shared use by that person and others is purchasing for resale within the meaning of this tariff if such person agrees to assume all the obligations of a reseller under this tariff.
B.	Where a reseller purchases telephone exchange service from the Telephone Company under this tariff, and resells it to an end user customer, such end user will be able to access any and all services that an end user customer of the Telephone Company would normally be able to access on a Telephone exchange service line. Such services, to the extent provided by the Telephone Company, will be deemed to have been sold by the Telephone Company to the reseller as they are utilized by the reseller's end user, and the reseller will be responsible to the Telephone Company for payment for such services.
C.	Resale services are provided by means of wire, fiber optic, radio or any other suitable technology or a combination thereof.

6.1.2 Services Offered for Resale	
A.	The services that are offered for resale under this tariff are any and all features, functions, and capabilities that are separately offered by the Telephone Company to end users under any of the Telephone Company's intrastate tariffs, with exceptions to the following services which will not be offered by the Telephone Company under this tariff.
1.	Public telephone service is not available for resale under this tariff.

Issued: November 29, 2000
