This feature permits the Customer to define routing of calls made to the same 800 number on a percentage basis so that calls can be allocated to multiple locations. Percentages must be defined in whole numbers, with 1% (one percent) as the smallest allocation percentage to any location. The total of all percentage allocations must be 100%.

(e) Command Routing

This feature allows the Customer to activate a different Enhanced 800 routing plan on command by placing one telephone call to the Company.

- (1)** The Customer may define up to 99 separate routing plans per 800 number.
- (2)** Routing plans must be loaded in the Company's network before they are available for activation on command.
- (3)** The Customer must have a minimum of two routing plans to be able to utilize this feature.
- (4)** Command Routing charges do not apply if the Customer uses the normal service order process to activate routing plans.
