## **SECTION 4 - GRANDFATHERED SERVICES**

### **4.1 SNET Business Flat Rate Plan\***

#### **4.1.1 General**

The SNET Business Flat Rate Plan is an Optional Calling Plan (OCP) offered only to business customers. This OCP is one-second rated after an eighteen-second minimum service usage, utilizing Switched or Dedicated Access lines. Access is not included in billing, and must be provided under the terms and conditions set forth in the appropriate sections of the Company's Tariffs.

#### **4.1.2 Regulations**

- (A) SNET Business Flat Rate Plan customers can have multi location accounts that have the same account-billing name grouped together. Accounts that are added after the initial installation inherit the start date of the first account.
- (B) SNET Business Flat Rate Plan customers will be required to select a Minimum Monthly Commitment (MMC) without signing a term commitment or a Minimum Annual Commitment (MAC) which requires a term commitment. A customer participating in the Business Flat Rate Plan commits to spending a predetermined dollar volume, either annually in the case of a MAC or monthly in the case of a MMC.
- (C) SNET Business Flat Rate Plan customers can aggregate usage totals from inbound and outbound service usage, Calling Card and multiple Billed Telephone Numbers (BTN) when they are identified under a single Master Account Number, to meet either the MMC or MAC.

*\* - Grandfathered to existing Customers at existing locations.*
