

VERIZON LONG DISTANCE LLC

New York PSC Tariff No. 2

Original Page 153

SECTION 5 - OBSOLETE SERVICE OFFERINGS, (Cont'd.)**5.18 Plan E Service, (Cont'd.)****5.18.1 General Description, (Cont'd.)**

For the Residential Customer who elects pre-paid service, the available balance that may be applied to prepaid presubscribed switched equal access direct dialed intrastate interexchange outbound calling service is the net amount after the Company has deducted Residential Customer-elected charges, e.g., charges for statements of account. The Residential Customer who elects pre-paid service will be notified of the account balance available for calling and the time available for a call by a network recording at the beginning of each call. At the Residential Customer's option, the Residential Customer will also be notified of the available balance for calling at the end of each call. The Residential Customer will receive warning messages as the account balance is nearing depletion. Once the Residential Customer's available balance for calling has been depleted, the Residential Customer will be unable to place a new call, or continue a current call, using the Company's Plan E service until the available balance for calling is replenished. The routine depletion and replenishment of the available balance for calling does not constitute suspension of service under this tariff.
