SERVICE CLASSIFICATION No. 19 – continued

6. The Company will permit Sellers served under this service classification to trade City Gate imbalances with other Sellers served under this service classification. provided that: (1) all imbalance trading occurs on the same interstate pipeline (2) all imbalances being traded occur on the same day (3) the Company is notified by the parties of their intention to trade imbalances in writing no later than 48 hours following the day on which the imbalance trading occurs to and (4) trading parties consent to the imbalance trade.
7. The Company, based upon the Customer's historical load profile and/or estimates of consumption, shall determine the Customer's annualized load profile under normal conditions. Based upon this load profile, the Company will determine the customer's DDQ.

The Company may permit the Seller or Seller's Agent to reduce deliveries of the DDQ on one or more days during any winter month to prevent surplus deliveries when the temperature is projected to be higher than normal and increase deliveries of the DDQ on one of more days during any winter month to prevent shortage deliveries when the temperature is projected to be lower than normal. The change in deliveries will be based on current and forecasted variations from normal weather.
