B Usage Charges

With the Frontier Digital Phone Unlimited State option, unlimited intrastate usage is available only on the main billing number on the account. All calls that do not qualify for unlimited calling are billed in one-minute increments with a minimum billing of one minute per call. Interstate 1+ calls will be rated on a per call basis, and are not part of the unlimited calling option. Only one Frontier plan is to be on the account for all lines. This product is available for residential voice service only. The unlimited minutes of long distance service do not include usage for calls to 900 numbers, long distance directory assistance, or operator services.

The Frontier Digital Phone Unlimited State service is offered to the residential user, for the Customer's personal, residential, non-business and non-professional use. Using the Frontier Unlimited State service is prohibited for any commercial or governmental activities, for profit or non-profit, including but not limited to home office, business, sales, telecommuting, telemarketing, continuous autodialing, fax broadcast, fax blasting, accessing the Internet with a long distance dial-up number, resale or transfer of the Frontier Unlimited State service or any other activity that would be inconsistent with normal residential voice applications and usage patterns, including conference calls. Average residential Customer use will be determined by Frontier based on average minutes of use of the Plan by representative residential Customers served by Frontier who subscribe to the Plan. If a Customer has substantially more than average residential Customer use, Frontier may regard such use as non-residential use subject to the remedies set forth following. Frontier may suspend, restrict or cancel the Customer's service, subject to applicable notice requirements. If it is determined that the usage on the Frontier Unlimited State is not consistent with residential voice applications, substantially exceeds average residential use, or is otherwise prohibited (such as long distance dial-up Internet calls),
