36. OTHER CHARGES AND ADJUSTMENTS (Cont'd)**B. Electric Bill Credit** (Cont'd)

The EBC so determined shall be applied as a per kWh or kW credit, as applicable, to the energy (kWh) or demand (kW) deliveries on the bills of all customers served under Service Classification Nos. 1, 2, 3, 5, 6, 8, 9, 13 and 14. Customers taking service under Service Classification No. 14 will receive the credit applicable to their Parent Service Classification. Parent Service Classification shall mean the Service Classification that the customer would otherwise qualify for based on the customer's usage characteristics.

The EBC will be stated in whole \$0.00001 amounts per kilowatthour and whole \$0.01 amounts per kilowatt. Not less than fifteen days prior to a proposed change in the EBC, a Statement showing the factors and the effective date will be filed with the Public Service Commission apart from this Schedule.

For a customer taking service under Service Classification Nos. 3 or 13: if the amount of the EBC in any given billing period exceeds the customer's billed delivery charges from Central Hudson for the billing period, resulting in a net bill less than zero (0), Central Hudson will issue the customer a bill in the amount of zero (0) dollars; or, (2) if the customer's billed delivery charges for any given billing period prior to the application of any EBC are less than zero (0), no EBC will be applied in the billing period. Any EBC not received by the customer due to operation of the above constraints will be reallocated to that customer in the subsequent billing period. In any such reallocation, the aforementioned constraints will continue to be applicable and may entail reallocation to subsequent billing periods. These EBC constraints will be applied prior to the existing constraints for the Purchased Power Adjustment, as described in General Information, Section 29.
