**2.1 DEFINITIONS**

Access Code

A sequence of numbers that, when dialed, connects a caller to an interexchange carrier that is associated with that sequence. Dialing sequences that utilize a 950-XXXX, 1-8XX, or 101XXXX prefix are examples of access code arrangements available to customers.

Access Line

An arrangement from a local exchange telephone company or other common carrier, using either dedicated or switched access, which connects a subscriber's location to the Company's location or switching center.

Affiliate

Any entity (including any natural person or entity such as a corporation or partnership) controlling, under the control of or under common control with another entity.

Authorization Code

A numerical code, one or more of which may be assigned to a subscriber, to enable the Company to identify the origin of the service user so it may rate and bill the call. Automatic Number Identification (ANI) may be used as or in connection with the authorization code.

Authorized User

An individual, firm, corporation, or other entity authorized by the customer to utilize communications services provided by the Company.

Automated Collect

Collect Calls that are handled on an automated basis such that they do not require intervention by an attended operator position (i.e. "live" operator) to complete (also known as 0++ Collect Calls).
