4.2 BUSINESS SERVICE OFFERINGS (Cont'd)

J. Virtual Network Service (VNS) And Switched Digital Service (SDS)

1. Virtual Network Service (VNS)

a. General Description

VNS is a customized, software defined virtual private network service which provides a unified communication and management features for multi-location business customers. Subscribers to VNS receive the Standard Feature Package which includes the availability of dedicated access and termination and switched origination and termination; usage rates with volume discounts; international calling to international locations, universal range privileges, remote toll-free access into the VNS network and 7-digit and 10-digit private dial plans.

This service is provisioned in conjunction with the interstate VNS under which Qwest provides interstate long distance service. All other terms and conditions, including any applicable discounts offered through the Qwest Rates and Services Schedule (RSS), and customer eligibility under this service are specified in the Qwest Rates and Services Schedule No. 3.
