34.3.4.2.3 A customer who elects to obtain their Electricity Supply Service from an ESCo for its qualifying EZR load, is eligible for Rule 42 - Customer Service Backout Credit (CSBC) Mechanism. The customer shall be eligible for its parent service classification's CSBC rates as specified under Rule 42. The CSBC credit amount for a customer's monthly billing period shall be determined by the application of the appropriate CSBC rates to the qualifying EZR load (kWh), however such credit amount as determined above can be no greater than the customer's parent service classification's customer charge.

34.3.4.3 Delivery Rates Applicable to Qualifying EZR Load Which Commenced Before September 1, 1998.

Group Classification Criteria

34.3.4.3.1 Customers who are eligible to receive EZR service and whose EZR service commenced prior to September 1, 1998 shall be divided into the following three groups for billing purposes:

34.3.4.3.1.1 Group 1 Customers: Customers who do not qualify for service under Group 2 or 3.

34.3.4.3.1.2 Group 2 Customers: Customers who meet the Manufacturing and Service Sector definitions as specified below:

A. Manufacturing Sectors:

Manufacturing customers shall be identified as those customers classified by the North American Industry Classification (NAICS) System Manual (1998 edition or revised thereto) as follows:

<u>Name</u>	<u>NAICS Code</u>
Manufacturing	31 - 33
