**SECTION 3 - GENERAL RULES AND REGULATIONS, (Cont'd.)****3.1 Use of Facilities and Service, (Cont'd.)****3.1.5 Notification of Service-Affecting Activities**

The Company will provide the Customer reasonable notification of service-affecting activities that may occur in normal operation of its business. Such activities may include, but are not limited to, equipment of facilities, additions, removals or rearrangements and routine preventative maintenance. Generally, such activities are not specific to an individual Customer but affect many Customers' services. No specific advance notification period is applicable to all service activities. The Company will work cooperatively with the Customer to determine the reasonable notification requirements. With some emergency or unplanned service-affecting conditions, such as an outage resulting from cable damage, notification to the Customer may not be possible.

**3.2 Minimum Period of Service**

The minimum period of service is one month except as otherwise provided in this Tariff. The Customer must pay the regular tariffed Rate for the service they subscribe to for the minimum period of service. If a Customer Disconnects service before the end of the minimum service period, that Customer is responsible for paying the regular Rates for the remainder of the minimum service period. When the service is moved within the same Building, to another Building on the Same Premises, or to a different premises entirely, the period of service at each location is accumulated to calculate if the Customer has met the minimum period of service obligation.

If service is terminated before the end of the minimum period of service as a result of condemnation of property, damage to property requiring the premises to be abandoned, or by death of the Customer, the Customer is not obligated to pay for service for the remainder of the minimum period.
