
SECTION 1 - DEFINITIONS AND ABBREVIATIONS (CONT'D.)

Central Office - The Premises of the Company or another local exchange carrier containing one or more switches that are used for interconnection with other service providers and network facilities.

CIC - An Interexchange Carrier identification code.

CMRS – Commercial Mobile Radio Service.

Commission - Refers to the New York Public Service Commission, unless otherwise indicated.

Company or Carrier - Refers to Time Warner ResCom of New York, LLC, d/b/a Time Warner Cable, issuer of this tariff.

Constructive Order - Delivery of Calls to or acceptance of Calls from the Customer's End Users over Company-switched local exchange services constitutes a Constructive Order by the Customer to purchase Switched Access Services as described herein. Similarly the selection of the Customer by an End User as the End User's PIC constitutes a Constructive Order for Switched Access by the Customer.

Customer - Any person, firm, partnership, corporation or other entity which uses Service under the terms and conditions of this tariff and is responsible for the payment of charges. In most contexts, the Customer is an Interexchange Carrier utilizing the Company's Services described in this tariff to reach one or more End Users.

Customer Premises - The Premises specified by the Customer for termination of access Services. Typically an Interexchange Carrier's Point of Presence.

Dedicated Access - A method of reaching the Customer's communication and switching systems whereby the End User is connected directly to the Customer's Point of Presence or designate without utilizing the services of the local switched network. Originating or terminating access between an End User and an Interexchange Carrier may be provided via dedicated facilities, circuits or channels.

DS1 -Digital Signal Level 1; a dedicated, high capacity, full duplex channel with a line speed of 1.544 Mbps isochronous serial data having a line signal format of either Alternate Mark Inversion (AMI) or Bipolar with 8 Zero Substitution (B8ZS) and either Superframe (D4) or Extended Superframe (ESF) formats. DS1 Service has the equivalent capacity of 24 Voice Grade or DS0 Services.
