SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.23 Determination of Jurisdiction of Mixed Interstate and Intrastate Dedicated Facilities

2.23.1 When mixed Interstate and Intrastate Service is provided over a dedicated facility, the jurisdiction will be determined as follows. For jurisdictional reports required for Switched Access, see Section 2.9.2.

- (a) If the Customer's estimate of the Interstate traffic on the Service equals more than 10% of the total traffic on that Service, the Service will be provided according to the applicable rules and regulations of this tariff.
- (b) If the Customer's estimate of the Interstate traffic on the Service is 10% or less of the total traffic on that Service, the Service will be provided according to the applicable rules and regulations of the appropriate intrastate tariff.
- (c) If the percentage of Interstate traffic on the Service changes to the extent that it alters the jurisdiction of the Service, the Customer must notify the Company of any required change in status. The affected Service will revert to the appropriate jurisdictional tariff within the next full billing cycle. Any applicable termination liability will be transferred with the jurisdictional change of the Service.
