Received: 09/24/2010 Status: CANCELLED Effective Date: 09/26/2010

PSC No: 120 - Electricity

New York State Electric and Gas Corporation

Initial Effective Date: September 26, 2010

Leaf No. 134

Revision: 7

Superseding Revision: 6

Issued in compliance with Order in Case 09-E-0715 dated September 21, 2010

SERVICE CLASSIFICATION NO. 2 (Continued)

REVENUE DECOUPLING MECHANISM ("RDM"):

A customer taking service under this Service Classification shall be subject to a Revenue Decoupling Mechanism adjustment as explained in this Schedule, General Information Section 7. See RDM Statement

INCREASE IN RATES AND CHARGES:

The rates and charges under this Service Classification, including minimum charges, will be increased by a surcharge pursuant to section 6 of PSC No. 120 to reflect the tax rates applicable within the municipality where the customer takes service.

DETERMINATION OF DEMAND:

The billing demand will be the metered demand, which is the highest average kilowatts used in a thirty-minute interval during the month.

(For customers whose meters are read bi-monthly, the metered demand will be 95% of the metered demand.)

Customers who choose to take all or part of their back-up or maintenance service under this service classification rather than under Special Provision (d) of NYSEG's Service Classification No. 11 will pay a minimum demand charge as described in NYSEG's Service Classification No. 11. Customers will pay a minimum demand charge related to generation, ancillary, and transmission costs. The minimum demand charge is based on a rate per kW of the contract demand and is accumulated over a 12-month period. The accumulated contract demand charge component will be compared to the accumulated demand charge in this service classification. If the contract demand charge is greater than the demand charge in this service classification, then the customer will only pay the contract demand charge in that month. If it is less than the demand charge in this service classification, then the customer will pay that difference in that month.

DETERMINATION OF REACTIVE KILOVOLT-AMPERE HOURS:

Whenever the customer's metered demand is 200 kW or more for two billing periods in any two of the previous twelve (12) months, the reactive kilovolt-ampere hours shall thereafter be metered. The billing reactive kilovolt-ampere hours will be the reactive kilovolt-ampere hours in excess of one-fourth of the metered kilowatt-hours.

TERMS OF PAYMENT:

All bills are rendered at the above "unit prices" and that amount is due on bills paid on or before the "past due" date indicated on the bill. A late payment charge at the rate of one and one-half percent $(1\ 1/2\%)$ per month will be billed on all amounts not paid by that date. (Further details in Section 4 of P.S.C. No. 119 - Electricity or superseding issues thereof.)

TERM:

Single Phase Service:

One month and thereafter until terminated by 48 hours' written notice.

Three Phase (or Two Phase) Service:

One year and thereafter until terminated by 48 hours' written notice.

ISSUED BY: James A. Lahtinen, Vice President Rates and Regulatory Economics, Binghamton, New York
