
SECTION 2 - REGULATIONS

2.11 Definitions (Cont'd)

Circuit: A channel used for the transmission of electrical energy in the furnishing of telephone and other communication services.

Commission: The New York Public Service Commission.

Company: TC Systems, Inc. ("TCG").

Connecting Arrangement: The equipment provided by the Company to accomplish the direct electrical connection of Customer-provided facilities with the facilities of the company; or facilities of the company with other facilities of the Company.

Connecting Company: A corporation, association, partnership or individual owning or operating one or more exchanges and with which communications services are interexchanged.

Construction Charge: A separate nonrecurring charge made for the construction of facilities in excess of those contemplated under the rates quoted in this tariff.

Continuous Property: Continuous property is defined as a plot of ground, together with any buildings thereon, occupied by the Customer which is not separated by public thoroughfares or by property occupied by others.

Contract: The agreement between a Customer and the Company under which service and facilities are furnished in accordance with the applicable provisions of the Tariffs.

Customer: The person, firm or corporation which orders service and is responsible for the payment of charges and compliance with the terms and conditions of this tariff.

Customer-Provided Equipment: All communications systems, devices, apparatus and their associated wiring, provided by the Customer.
