- 3.6.1 General
- (A) This service is a reverse billed Service that allows the Customer to pay for incoming calls. It permits calls to be completed to the Customer's location without charge to the calling party. Customers may subscribe to TFS with or without the ability to receive intrastate IntraLATA Service from the Company. T
- (B) TFS includes: (1) a TFS Number that can be selected by the Customer or randomly generated by the SMS/800 database; (2) an Area of Service selected by the Customer; and (3) various optional features.
- (C) If the Customer does not advise the Company of its choice of a specific Resp Org, the Company will determine which Resp Org will be used.
- 3.6.2 Availability
- (A) Area of Service
- Area of Service allows a TFS Customer to block or allow calls to a given TFS Number based on the originating area of the caller.
