Leaf: 20  
Revision: 11  
Superseding Revision: 10

### GENERAL INFORMATION

#### 2. How Service May Be Obtained: (Cont'd.)

##### C. Underground Extensions for New Residential Subdivisions: (Cont'd)

##### (10) Line Costs:

The following costs are to be used to determine contributions and deposits as set forth in Sections 2.C.(4), 2.C.(5) and 2.C.(7). These costs will be reviewed and filed annually with the Public Service Commission by February 1, based on a simple average of annual costs for the most recent five years, 12 months ended September 30:

- |     |  |              |
|-----|--|--------------|
| (a) | Underground single-phase distribution including trench, primary cable, secondary cable, and labor.<br>Per Foot of Trench   | \$17.09      |
| (b) | Underground Distribution trench<br>Per foot of Trench  | \$5.19       |
| (c) | Underground Service including trench, service cable and labor<br>Per Foot of Trench  | \$9.88       |
| (d) | Underground Access to Subdivision<br>Cost based on the estimated costs of the customer specific project  | Project Cost |
| (e) | Incremental underground poly-phase distribution primary cables and labor.<br>(Applicable if the Company determines that two or three-phase service is required or if the customer requests two or three-phase service.)<br>Per Foot of Trench.<br>In addition to this incremental poly-phase cable rate, the customer will be charged the incremental amount for any appurtenant facilities needed to meet the customer's or Company's requirements. | \$9.05       |
