## **Section 7. Switched Access Rates, Charges and Fees (Cont'd)**

### **7.1.1. Carrier Common Line**

The Telephone Company will provide Carrier Common Line Access Service to customers in conjunction with Switched Access Service provided in those areas where the Incumbent Local Exchange Carrier provisions in a similar manner. Carrier Common Line Access provides for the use of end users' Telephone Company provided common lines by customers for access to such end users to furnish Intrastate communications.

Rates apply to all FGD access minutes that originate from or terminate to the Telephone Company's end office (equal access) and to all FGB access minutes that terminate to the Telephone Company's end office. Refer to Section 7.1.4.

### **7.1.2. Local Switching**

Local Switching provides local end office switching and end user termination functions necessary to complete the transmission of switched access communications to and from the end users served by the local end office.

Rates apply to all FGD access minutes that originate from or terminate to the Telephone Company's end office (equal access) and to all FGB access minutes that terminate to the Telephone Company's end office. Refer to Section 7.1.4.

### **7.1.3. Transport**

#### **Tandem Switched Transport**

Tandem-Switched Transport consists of the circuits used in common by multiple customers from the LEC's access tandem to the Telephone Company's end office. The Tandem-Switched Transport Rate includes a Tandem-Switched Transport – Termination rate and a Tandem-Switched Transport rate. The rate elements are provided below:

1. The Tandem-Switched Transport – Termination element is a usage rated, per minute Rate to recover costs incurred at the ends of the transmissions links.
2. The Tandem-Switched Transport element is usage rated and distance-sensitive, i.e., a per access minute per airline mile rate. The rate recovers costs of the transmission facilities, including intermediate transmission circuit equipment, between the end-points of the circuits.
3. For Tandem Switched Transport, a Shared Multiplexing Rate will be assessed to all minutes of use between the LEC's Access Tandem to the Company's end office. The shared Multiplexing rate recovers multiplexing costs on the end office side of the tandem.

For Rates and Charges refer to Section 7.1.4.
