Leaf 56  
Revision: Original

## **Section 9. Special Access Services (Cont'd)**

### **9.2. Charter Business<sup>®</sup> Ethernet**

Charter Business Ethernet provides transparent network connectivity of point-to-point, point-to-multipoint or multi-point to multi-point configurations via Charters hybrid-fiber-coax (HFC) network which may provide an HFC only private network solution or may be intermixed with Optical Ethernet endpoints. .

### **9.3. Charter Business<sup>®</sup> Optical Transport Service**

A secure private connection delivers high-quality fiber-optic service between two or more sites. A private connection delivers transmission speeds ranging from TDM (DS1, DS3) to high-end SONET (OC3, OC12, OC48), and wavelength services.
